Might's Further Contribution to Recovery

This new-style "Direct Contact Public Service CITY DIRECTORY, 'PHONE LIST and PERSONAL CREDIT HANDBOOK" is a special edition for Coronation year and carries many services added within the last two or three years with which few of the Toronto public are familiar.

Several years ago, to increase the efficiency of Toronto firms and so that their representatives could get in touch with a buyer, whether he be home owner, roomer, boarder, adult son or daughter,—a complete and exclusive 'phone list was incorporated with the City Directory.

Instead of a firm's agent having to send a letter, or go five or ten miles across town to locate a client or prospective customer who does not happen to be a householder, he can now get the 'phone number for any adult person from the City Directory, provided that person resides in a home in which there is a telephone. The new directory shows approximately 120,000 'phone listings which are given in no other publication.

A complete HOME OWNERS and TENANTS DIRECTORY, normally costing thousands of dollars in other cities, is included with the City Directory. It shows every home in Toronto in which the owner resides. Homes occupied by tenants are also listed street by street.

Government figures indicate that almost 90% of the business of the country is done on credit, so all merchants are vitally interested in doing business with that "90%" of their potential market which buys on credit.

The ALPHABETICAL and STREET sections combined show complete credit information for adult citizens of Toronto. For many years, business firms have had available credit data concerning other firms but not for individuals. Large corporations have been able to build up expensive "Personal" Credit Departments so that they could take advantage of the "credit market" which has developed within the last few years. For smaller firms this has been almost impossible.

Now, any business organization can secure credit information concerning adult citizens. Normally, a merchant asks a credit buyer his name, address, occupation, place of employment, whether he owns his own home, how long he has lived there, his 'phone number, and possibly, the names of his neighbours. All this information can be checked with the City Directory, and instead of asking the person to come back the next day for his purchase, he can, if satisfactory information is found, take it with him.

The City Directory new services make a very distinct contribution to the ability of the Toronto firms to compete with the firms of other cities and to safely take advantage of credit business and at the same time establish good-will for themselves.

200,017 HOMES IN TORONTO

Queen City's first complete householders survey shows Toronto only 28,479 behind total claimed for Montreal.

Although Montreal claims 1,406,596 or 60% more population than Toronto, a complete face-to-face survey by our City Directory enumerators calling at every home in the city, shows the pleasant and surprising fact that Toronto has 200,017 complete family buying units, or within 13% of the 228,496 households claimed for Montreal.

Until this house-to-house survey was completed a few months ago, 175,000 homes had been estimated by the most optimistic as being a fair "guess" as to the number of homes in Greater Toronto.

This new-style COMBINED CITY DIRECTORY, 'PHONE LIST and PERSONAL CREDIT HANDBOOK gives more services to Toronto business firms than are provided by the City Directory Publishers in any other Canadian city.

Through these new services Toronto firms are enabled to effectively compete with outside firms for the business of this most valuable of Canadian markets.

The Harbour returns for 1936 indicate a marked improvement in business generally; the only commodities still appearing unsettled are materials used in building and construction, one of the last factors of Canada's industrial structure to yield to the corrective influences which are steadily improving economic conditions and bringing business back to normalcy. The figures for 1936 bear out the statement of the Lake Carriers' Association that the steamboat business on the Great Lakes for this year is the best since 1929. It was also a record year for Toronto Harbour, cargo tonnage showing an increase of 12% over 1935 and exceeding by 247,686 tons, the record cargo tonnage of 3,125,144 tons made in 1934.

The waterborne coal and coke trade of Toronto Harbour has shown marked increases in the last few years.

Year	Coal	Coke	Total

1936 .(prelim.)	1,374,890	256,713	1,631,603

During this period coal of Canadian and British origin has increased from 22,588 tons to 337,871 tons.

Increases due to completed Harbour improvements combined with opening of the new Welland Ship Canal in late fall of 1930.

TORONTO—INDUSTRIAL FACTS

Toronto manufacturers annually purchase raw material to the value of $175,000,000.

There is more money invested in industrial enterprises in Toronto than the combined total industrial investments of the Provinces of Alberta, Saskatchewan and Manitoba.

Toronto has a greater amount of capital invested in manufacturing than the combined manufacturing capital of any other eight manufacturing centres of Ontario.

Toronto pays annually $94,000,000 in salaries and wages to her industrial workers; a greater amount than any other Canadian city.

INDUSTRIAL DEVELOPMENT

There are approximately 2,700 manufacturing establishments in Toronto and suburbs. Toronto has more factories than any other Canadian city, including twice as many branches of British and United States firms. The value of manufactured products in 1934 exceeded $300,000,000. The capital invested in industries exceeded $400,000,000. There were in the Toronto area approximately 85,000 industrial employees and the 1934 industrial payroll approximated $94,000,000.

Toronto is firmly established as Canada's leading industrial and distributing city. It is the immediate centre of the largest and wealthiest consuming population in Canada (one-third of the buying power of the entire Dominion market is concentrated within a radius of 100 miles), and it is the centre also of Dominion-wide business and wholesale trade. It is also a favorable base for world-wide export trade, which is one of the outstanding features in Canadian industrial development.

The volume and diversity of Toronto manufacturers provide plentiful and efficient labor, skilled and unskilled, male and female. Toronto has excellent distribution facilities in all directions, by rail, lake, highway and air, with complete linking up of these services. It is in close proximity to sources of raw materials. Splendid industrial sites are available in the harbor and other zones within the city limits and in its industrial suburbs. It has electric power at cost and it is one of the financial centres of the North American continent, providing ample financial facilities.

The Toronto Industrial Commission is the official industrial commission for the City of Toronto. The offices of the Commission are in Room 1614, Canada Permanent Building, 320 Bay Street, Toronto.

Many other statistics show how rapid and sizeable has been the city's business growth. Consider the large increase in the number of telephones—the pulses of city commerce in Toronto. The figures for the past few years are:—

The increase in the number of telephones in service since 1883 is as follows:—

December 31st, 1883	796	December 31st, 1923	128,605
December 31st, 1893	4,446	December 31st, 1933	185,483

TORONTO—EDUCATIONAL FACTS AND SCHOOL STATISTICS

Toronto has 18 libraries—a Public Reference Library, corner of College and St. George; Central Lending Library, 36 St. George Street (with Central Reading Room and Music Library on College Street); 16 Branch Libraries and a Boy's and Girl's House, 40 St. George Street. The annual use of books for 1936 was 3,980,760 copies. Total books in all branches, 579,982.

Toronto offers unusual educational, religious, recreational and home facilities to the working man; sane labor laws, honestly and ably administered, all result in satisfied and satisfactory employees.

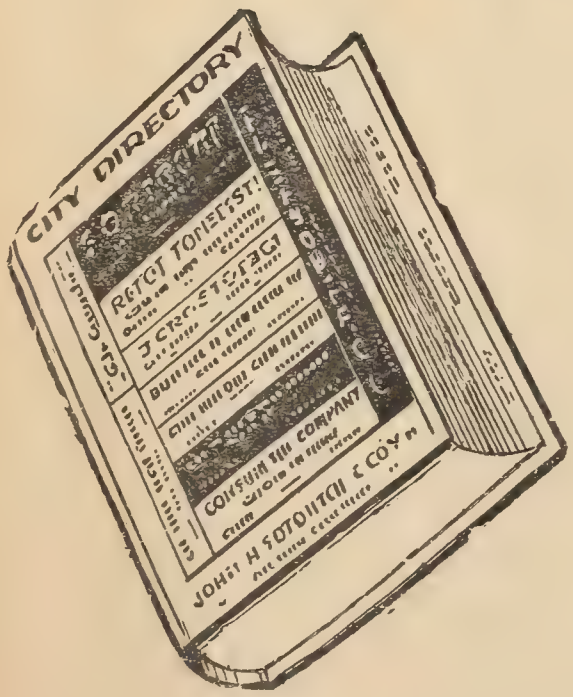
Why The City Directory

CLASSIFIED BUSINESS LISTS

are so much more complete



First of all compare them with the next best Listings. The result is rather amazing. City Directory Lists are sometimes two, three or four times as large.

Why? because good times or bad the City Directory Lists are complete; they don't depend on paid subscriptions to some attendant service.

TAKE OUR SUGGESTION — compare the Directory Lists as we recommend. You will realize why buyers increasingly depend on the Directory.

Superior Typewritten Letters

REPRODUCED BY

Mightographing

Might's Method of Reproducing

The Typewritten Letter is the only common vehicle in business to-day for the exchange of correspondence.

More business is done and more sales effected by the Typewritten Letter than by any other single medium.

- ***Might's Superior Quality Typewritten Letters*** embrace all the essential features necessary in mechanical production.
- ***New Type Set for Every Letter***—This affords the appearance of reproduction from a new typewriter.
- ***Guaranteed Fill-in***—By the use of new typewriters for all work of filling in to match, the finished letter can be guaranteed in every mechanical detail.
- ***Proofs***—These can be delivered with the least possible delay, and during the greater part of the year Might's Setting Division operates both day and night.
- ***Holding Type Set***—For the convenience of those who may desire to run a further supply of letters later on, type is held set on request, for a reasonable period, without charge.
- ***Prices***—Might's prices on typewritten letters are considerably below the charges necessary on the old systems.

By using Mightographed Typewritten Letters you have the opportunity of combining with these outstanding features an unexcelled delivery service and the co-operation of our complete direct mail plant.
